President's Corner

“Try to be a rainbow in someone’s cloud.” - Maya Angelou

Every year as we prepare to welcome the new year with hope and anticipation, we also take the time to reflect on the past.

My own personal journey in 2022 was filled with challenges and heartaches but yet as I review the past year, I realize how fortunate I have been to have the love and support of friends and neighbors near and far including work colleagues. I am humbled by the generosity of so many, whether it was something big like fostering my fur-babies while I was away and extra time off from work, or simpler things like taking care of mail and deliveries, or the collection of messages and hugs.

We are constantly saturated with news of a world filled with tragedy and crisis. The opposite is also all around us but not so readily broadcast. It is my hope that we each take the time to realize the power we possess to make a positive difference in the lives of those around us through simple acts of kindness, starting right here on Jerdone Island! Please take the time to be kind and caring and you will find that you will make the world a better place!

Wishing each and every one of you a Happy and Healthy New Year.
